

## HOME TEAM WON GAME

Goddard Defeated St. Albans  
High School

### SATURDAY AFTERNOON.

Knapp Pitched Good Game for Local  
Team but Goddard Batters Were  
Still When Hits Were  
Necessary.

Goddard defeated St. Albans high school on the local campus Saturday afternoon by a score of 6 to 2. It was a close and interesting game up to the fifth inning when Goddard bunched her hits and aided by St. Albans errors clinched the game with four scores, the runs previously standing two to two. The visitors were much stronger than when Goddard beat them last Monday at St. Albans, having a new battery, short stop and fielder, who were all good players. Hanley, who pitched the game for the visitors, pitched the day before against Montpelier seminary. Though he struck out but one man during the game Goddard could not hit safe when his meant runs. The balls seemed to come over big as cocoanuts but the Goddard batters hit safe only five times.

Knapp was in the box for the home team and pitched a fine game, having fine control and several times retiring the high school batters with strike outs when a single hit would mean a run. He struck out nine men and allowed but three hits. In the fourth inning Goddard retired the visitors after one man was out and three men were on bases by their first double play of the season. Butler scooped in a hot grounder and threw to the plate catching the runner coming in from third and Lafeue put the ball to first in time to shut out the batter.

Goddard took a chance for two more runs in the fourth by Pickering's poor judgment in attempting to score on an easy grounder to the short stop and Booth's feeble attempt to steal in home on the throw back to the pitcher.

### WOODMEN WIN.

Invincible Washington Street Stars Go  
Down to Defeat Before Comiskey's  
Curves.

Granville, May 15.—The Woodmen base ball team defeated the fast Washington Street Stars of Barre last Saturday afternoon by a score of 8 to 4 in an exciting game.

Comiskey, the Woodmen's star pitcher, had the Stars at his mercy, striking out 15 men and allowing but one free pass and 4 hits, while Smith struck out two men and was touched up for 19 hits and gave one free pass.

Both teams played snappy ball after the first inning, in which the Woodmen made four errors which meant three runs for their opponents, who did not score again until Smith scored from third on Craigie's throw to second to catch Timmons, which would have made the third out had Smith not muffed the throw. Capt. Craigie's work behind the bat and his remarkable throwing kept the Stars from pilfering many bases.

### MAY ESTABLISH HORSE FARM.

Important Project Being Considered at  
White River Junction.

White River Junction, May 15.—The  
old fair grounds near here have been  
used for some time for training horses  
for the track by persons from various  
parts of New England. As there is a  
considerable demand in the East for  
Western horses for general purposes, a  
project is on foot to buy a farm in the  
vicinity of the Junction as a depot for  
horses from the West, which will be  
brought on in carload lots, broken, ac-  
climated, and then supplied to cus-  
tomers. If the plan is successfully  
carried out the Junction will become a  
leading horse market.

### The Oil on Black Coffee.

The cup of black coffee had on its sur-  
face a little oil. This oil shimmered, it  
glowed forth delicate, changing colors, like  
oil on water. The man who was about  
to drink the coffee gazed at it with de-  
light. "The oil," he said, "tells me all  
I want to know about the coffee. Now,  
without tasting it, I am sure it is  
superb. The whole secret of coffee mak-  
ing," he went on, "lies in extracting and  
retaining this oil. This oil it is which  
gives coffee its aromatic and delicious  
taste. This oil it is also which stimu-  
lates you, which makes you feel, after  
you have drunk it, strong and gay.  
Good coffee—the kind with oil afloat on  
it—can only be made by excellent cooks.  
In, millionaires' houses, or in hotels  
where the employ French chefs, you  
are likely to get it. But the average  
American housewife does not know how  
to make this oily kind of coffee at all."

### EIGHT-HOUR LAW ON CANAL.

Moody Holds That It Applies to Em-  
ployees.

Washington, May 13.—In an opinion  
rendered by Attorney General Moody  
regarding the application of the eight-  
hour law to the employees of the Isthmian  
Canal Commission on the Isthmus of  
Panama, the attorney general holds  
that the law applies to these employees.

An inspection of the opinion showed  
that it did not cover all the ground de-  
sired by the Panama Canal Commission,  
and consequently it will be returned to  
the attorney general for further con-  
sideration.

### WILL RESIGN IN FALL.

Secretary of Navy Morton to Leave  
Cabinet.

Washington, May 15.—Secretary of  
the Navy Morton Saturday afternoon  
said that he had no present intention  
of resigning from the cabinet. He said,  
however, that it was thoroughly un-  
derstood between the president and him-  
self that he should leave the cabinet  
next fall.

### State Board Means Business.

Dr. C. S. Caverly of Rutland, presi-  
dent of the state board of health, makes  
the following statements:

"The state board of health has notifi-  
ed the authorities in Burlington, Ver-  
mont, St. Johnsbury, Swanton and  
Enosburg Falls that unless the public  
water supplies in those places, which  
have been found by repeated analysis  
to be contaminated, are not improved  
on or before June 1, 1906, the board will  
take action in accordance with section  
No. 1, of the statutes entitled 'An Act  
to Prevent the Pollution of the Sources  
of Water Supply.'"

"The board has authority under this  
act to prohibit, absolutely, the use of  
such water, at once."

### No Time for Details.

An American speeding over the Con-  
tinent of Europe in his automobile asked  
of his chauffeur: "Where are we?"

"In Paris," shouted the man at the  
wheel, and the dust flew.

"Oh, never mind the details," irrita-  
bly screamed the American million-  
aire, "I mean what Continent!"—Chicago  
Post.

### SHORT NOTES OF FASHION.

The skirt of the day just touches in  
front and on the sides, and just trails  
at the back.

Silver embroidery is a new little note  
on wedding gowns.

The striking combination of black and  
gold is among the best color schemes for  
evening dress.

Flowers and wings trim nine hats out  
of ten.

Long-basque coats and plain skirts  
are more in favor than boleros or short  
jackets.

New ways of arranging the hair have  
been made necessary by the tip-tipped  
hats, says the Washington Times.

Horsehair braids continue to lead in  
millinery.

Roses appear on more hats than any  
other one flower, big ones and little  
ones—every size.

A fad of the moment is the revival  
of the old-fashioned picot-edge ribbon  
as a trimming for millinery.

### POINTS ABOUT SUNSHADES.

All fabrics figure.

Green is much in evidence.

They should match the dress.

Painted parasols are pleasing novel-  
ties.

Tiny ruffles are among the adorn-  
ments.

There's every imaginable shade of  
blue.

Three tucks are one of the favored  
finishes.

White parasols may be had to fit all  
purposes.

Parrot head handles are ideal with  
green sunshades.

Folding handles are the thing for  
those who travel much.

They come in all the colors of the  
rainbow, and more.

Pale blue linen and taffeta are each  
charming in sunshades.

Warp-printed ribbon in floral designs  
borders a white parasol.

I fight the fogs that spoil your health
